

BEST PRACTICE-1

B. H. College, Howly

1. Title of the Practice:

Participatory Learning

We believe on innate potentiality of every student. To explore the talent of the students, the institution opened numbers of areas of participation for them according to their interest. Students involved in such program got an opportunity to exchange their views and opinions among the peers and enrich learning. People can enjoy the flavour of learning at their own which enhance their self-confidence and creativity.

2. Objectives of Practice:

- a) To develop students self-confidence, leadership quality, self-assessment ability and spirit of cooperation.
- b) To promote the ethical and social values of tolerance and inclusiveness.
- c) To enable learners to overcome obstacles, manage time and stress, and deal with challenges with following participatory activities
 - Publication of Magazines
 - Wall Magazines,
 - Activities in Students Forum,
 - Publication of Departmental News Letter,
 - Participation in Blood Donation Camps,
 - Participation in Village Adoption activities.

3. The Context:

The race for success and self-aggrandisement spoiled the sense of empathy and joys from the mind of the students. Students are learning like a machine having little values for humanity and social wellbeing. As an institution founded on the human values and ethics, the college considers as its mission to support innate potentiality and all-round development students.

Students a caring attitude not only to fellow human beings, especially those underprivileged, but also to all life forms around them. The multi-pronged-programme launched by the college is an exercise in peer and experiential learning. It has taken up regular activities for active students' participation.

4. Goal:

Primary goal of the practice is to explore innate potentiality of the students and provide with a platform for all-round development of the students. The specific goals include-

- a) To develop leadership quality of students.
- b) To develop creativity among students.
- c) To instil a sense of collective responsibility.
- d) To make students sensitive towards social issues.
- e) To enable the students to apply the knowledge they have learned to the real-life situations.
- f) To support mental and physical health of the students.
- g) To give an opportunity to feel the joy of manual labour.

5. The Practice

In calculate students' innate potentiality: Students are encouraged and incentivised to participate in different fields including art, music, sports and cultural activities to cultivate their innate potentiality.

Publication works by students: The students of publish magazine and wall magazine, News Letters and college Magazine in a regular interval at their collective affords.

Students Forum: the students involved in various extension activities through their forum. These forums include economic forum of the department of economics, Political Forum of the department of Political Science, Science Forum, Commerce Forum, etc.

Creative Exhibition: In connection with Annual College Week students took part in creative exhibition where the students showcase and demonstrate their inventions.

Students Union Body: In order to have a practical exposure to democratic electoral procedure, students' union body is formed every year as per the Principle of Electoral Democracy.

6. Evidence of Success

- Enhance the creative skills of the students. Students are writing articles, poems in newspapers and periodicals as well as participating in Art and Drawing competitions. Some of them are publishing book as well. A few of these achievements include:

Sl. No	Name of the students	Detail of publications
1	Sweety Ray	Participated as folk dancer to set World Record(Guinness World Record) for world largest Bihu performance held in Saru Sajay, Guwahati held on 14 April 2023
2	Dikshita Nath	Participated as folk dancer to set World Record(Guinness World Record) for world largest Bihu performance held in Saru Sajay, Guwahati held on 14 April 2023
3	Joly Nath	Participated as folk dancer to set World Record(Guinness World Record) for world largest Bihu performance held in Saru Sajay, Guwahati held on 14 April 2023
4	Seema Nath	Participated as folk dancer to set World Record(Guinness World Record) for world largest Bihu performance held in Saru Sajay, Guwahati held on 14 April 2023
5	Surajit Bhuyan	Recipient of 7 th Annual Bharatratna Dr. Bhupen Hazarika National Award, 2022
6	Surajit Bhuyan	Recipient of SAHITYA RATNA RASTRIYA BATA (7 th Annual Bharatratna Dr. Bhupen Hazarika National Award, 2022)
7		Attended Civil Defence Advance Training Course, batch no-602 at the Central training institute of civil defence & home guards, Assam during 01-06-2023 to 22-06-2023.

B.H. College, Howly
Newsletter
Faculty of Commerce
 Vol. I (2022-23)

From the Principal's Desk:
 It gives me immense pleasure to know that the Commerce Department of our college is going to publish a Newsletter. The stream has got a glorious past and it continues to spread a ray of wisdom in the society. The letter contains lots of news but also a will to encourage our new fraternity to do something extraordinary. The news letter is our mission and we will read our department properly through this attempt.
 With regards

Inauguration of Departmental Wall Magazine on the Theme of Start-ups & Act East Policy, 2021 & 22

The inauguration of a wall magazine is a traditional practice that celebrates creativity, innovation, and artistic expression. Wall magazines are a great way for students to showcase their talents, interests and ideas. This report aims to provide a comprehensive overview of the inauguration of the wall magazine at our Department.

From the Editor's Desk:
 The second wave of the covid-19 pandemic has further crippled India's traditional education system. Students were once again denied the opportunity to be present in the physical classroom environment and were forced to remain on the outskirts of the digital classroom. Teachers have also been constrained by the digital system. However, this restriction could not prevent both the student and teacher communities from achieving their desired outcome. The intellectual practice has been carried on through digital media. Classes continued as did participation in seminars and attending online seminars, conferences, workshops, short-term courses and various faculty development programs. The current issue of the Newsletter reflects all of the Commerce department's intellectual practices at a critical juncture. Each news and event on each of the newsletter's pages carry the institution's glory in a critical period of the century proving once again that nothing is impossible.

FAREWELL PARTY
 "Every end has a new beginning"

June 7, 2022: The students of 4th semester arranged a farewell party to the final year outgoing students of 6th semester. The seniors enjoyed the farewell party with moist eyes. Everyone including professors and the students of 2nd and 4th semesters of the economics dept. wished them good luck for their next big adventures in life. They also shared their sweet memories of college life and everyone became nostalgic. A sweet as well as emotional farewell was bid to them in various forms like singing, dancing and felicitating them with small gift hampers.

Technology is a very effective path to promote a healthy educational system. There are many significance of technology that changes and manipulates of academic environment. Technology helps in developing skill, gaining knowledge and acquiring new things in the field of education. The use of technology in education helps students to access different information easily and also preparing them future challenges. For teacher's the use of technology helps in implementing their lesson plan and facilitates personalised learning. With the effective use of digital learning tools in the classroom, student's engagement can be increased to a great number. Virtual classroom, video aids and other technology tools can make the class livelier and creates inclusive learning environment

 Number 1 / November 2022

WHAT IS POPULAR LITERATURE?

Popular literature is the work of literature which is intended for the entertainment for the masses or we can say that the main purpose of popular literature is commercial approach. The popular literature is a fiction which is also a genre. Popular literature include simple and everyday language, it does not seek a high degree of formal beauty or artistic language. The most important genre in popular literature is and always has been the romance, extending as it does from the Middle Ages to the present.

Some of the major works of popular literature are : Harry Potter, Sherlock Holmes, Chetan Bhagat's Five Point Someone, Socialite Evenings etc. Often people tend to associate popular literature with inferior literary value, however, that might not always be the case.

EDITORIAL FROM THE PRINCIPAL'S DESK

I am very much happy to know that the Department of Hindi, B. H. College, Howly is going to publish the first volume of it's yearly Newsletter GYANAM from the current academic session 2022-2023 onwards. GYANAM will provide a greater platform to showcase the various achievements of the Department and the teacher-student community in various fields. Apart from inculcating a sense of accomplishment, it will nurture the spirit of working with enthusiasm. The achievements earned in different fields inspire us to pursue our dreams and achievements that will provide us the taste of those dreams and motivate us to work further with greater zeal and enthusiasm. I have a strong conviction that a commendable effort like GYANAM by the Hindi Department will fruitfully serve its purpose in motivating the students and the faculty members to inspire for higher goals and achievements. I do appreciate the tireless efforts of everyone involved in the publication of the Newsletter and congratulate the teacher-student fraternity of the Department of Hindi.

Department of History
ANTIQUITY NEWSLETTER
 VOL 1 - MARCH 2023

HISTORY & IT'S RELEVANCE

Studying history at the modern context has a broader perspective by grappling us with complex problems and dilemmas through its transitional phases, extending the nature of examination upon how the past was either shaped or continues to be shaped in defining local, national and global relationships between various societies and people its study helped us to know how past technologies, government, culture and technologies are built how they operated and how they have changed. According to Francis Bacon, "History makes a man wise". At the present technologically advanced world history will definitely gives the people an end from their day to day problems of life as per example the remarkable personalities Clement Attlee, Prime Minister of England, Matthew of Ancona, the former editor of the Spectator, Norman Davis, T. Lawrence, Eric Williams Prime Minister of Trinidad and Tobago, Lester B. Pearson, Prime Minister of Canada, John Gorton, Prime Minister of Australia were all the alumni of subject history from the University of Oxford and Krishnakanta Handique, founder Vice-Chancellor of the Gauhati University, Satish Chandra former Chairman (1975-81) of the University Grant Commission, the former Chief Minister of Assam Hiteswar Saikia, Surya Kumar Bhuyan former Vice-Chancellor of the Gauhati University, Amalendu Guha, a notable historian from Assam and the list is more its scope in professionalism is also consisting of transferrable skills which is closely associated with range of careers such as law, publishing, journalism and the media museums, librarianship and archive work, teaching, tourism work in the development sector, global charity works, civil service and many other avenues are with it. At the phase of globalization the scope has widened and undergoing with change contributing in the rise of integrated and unified culture and economy. In the three-year degree programme the students have taught how human civilization evolved to the modern time from the prehistoric times. Throughout the duration of the programme the students get to know about the global and Indian major historical events by the end of the course a history graduate has more than just knowledge about culture and society so as to achieve the proficiency at the various levels of the professional world as a Writer, Editor, Research Assistant, Historian, Documentation Specialist.

FROM THE PRINCIPAL'S DESK

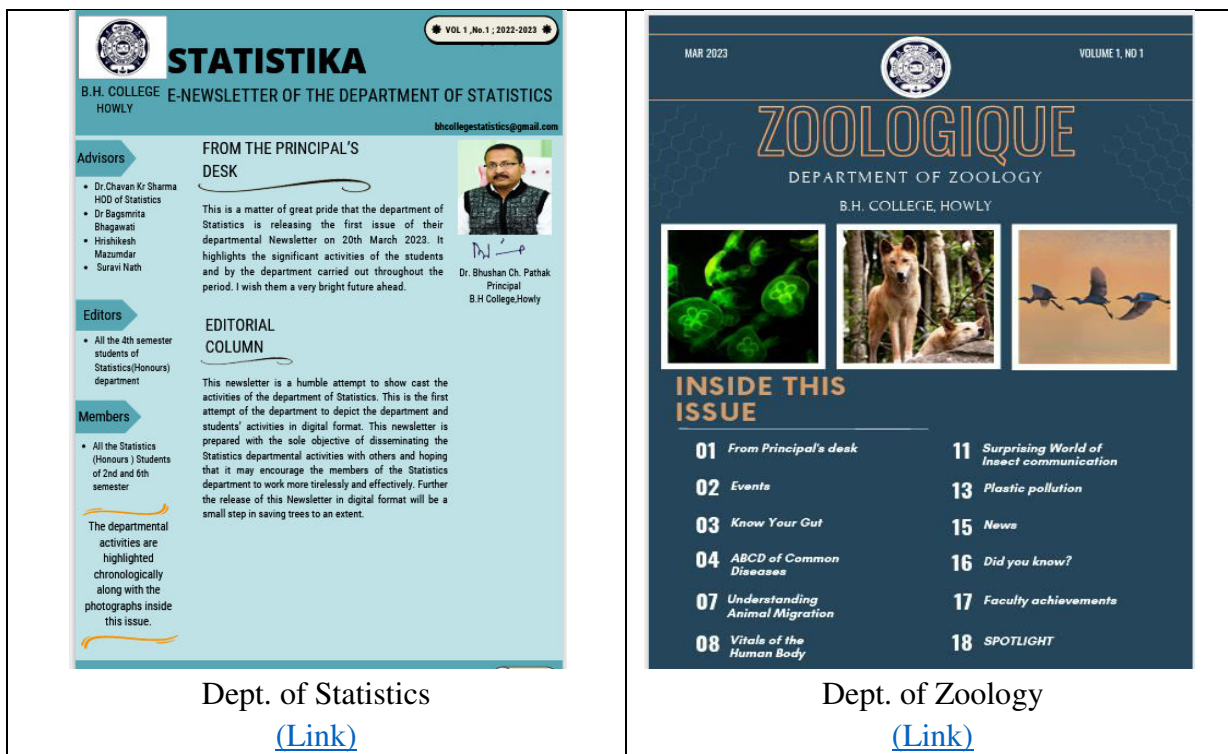

I am very much happy to know that the Department of Physics, B. H. College, Howly is going to publish the first volume of its yearly Newsletter Pramana from the current academic session 2022-2023 onwards. Pramana will provide a greater platform to showcase the various achievements of the Department and the teacher-student community in various fields. Apart from inculcating a sense of accomplishment, it will nurture the spirit of working with enthusiasm. The achievements earned in different fields inspire us to pursue our dreams and achievements that will provide us the taste of those dreams and motivate us to work further with greater zeal and enthusiasm. I have a strong conviction that a commendable effort like Pramana by the Physics Department will fruitfully serve its purpose in motivating the students and the faculty members to inspire for higher goals and achievements. I do appreciate the untiring efforts of everyone involved in the publication of the Newsletter and congratulate the teacher-student fraternity of the Department of Physics.

EDITORS' COLUMN

Pramana is a Sanskrit word it means Praman, i.e., Proof. In Physics every theory is proved by either theoretically or experimentally. Physics is a broad subject having diversities. Now a days there is no field in science where Physics is not involved. Modern discoveries in Physics like Nano Science, Artificial Intelligence (AI), Space Science, Information Technology (IT) etc. have changed the world in a different way. It makes the life style of humans very fast. When we decided to commence an annual newsletter of the Department in which we can document annually the constructive activities and achievements of Physics family, we belief that Pramana will be the ideal name. In this volume we have included the activities and achievements of the Physics Department for the session February, 2022 to January, 2023.

We would like to convey our heartfelt gratitude to Dr. Bhusan Ch. Pathak, Principal, B. H. College, College, Ranjit Bhuyan, Vice-Principal, B. H. College and Dr. Rabinyoti Khatanar, IQAC Co-ordinator, B. H. College, for providing valuable suggestions and constant motivations in every step. We offer our gratefulness to all the faculty members of the Department for their support and co-operation. We also express our thankfulness to our dear students for their dedication and sincerity towards the Department.

Dept. of Physics

H) Teacher's Day celebration

Students of Departments every year organized Teacher's Day on 5th September. Some glimpses of Departmental Teacher's Day celebration are here.

7. Problems Encountered:

- The schedule of the semester system appeared as one of the major problems towards executing such activities as the students hardly get anytime to spare after the routine exercise of the semester system. However, somehow the problem is managed by sparing more times after the routine works or sometimes on non-teaching days.
- Another issue is that initially the students consider these activities worthless as do not contribute to any credit earning. As such it takes time to streamline the students for such initiatives. However, once they acquainted with the work they gradually become fond of it.
