

Course Objective

Due to COVID 19, teachers are faced with a daunting task to conduct classes. There are several ways teachers can utilise the technology and resources already available to support online learning and ensure students still receive a quality education. To design your class interesting and to unleash the advantages of educational technology – may it be a complete online or blended, this programme will take you on a journey of “New Era Teaching”.

In this workshop we will explore how online learning takes places, how to design your lesson, using various online tools for conducting activities and tracking the performance of the students.

Course Outcome

At the end of the programme teachers will be able to:

- Understand online teaching & learning methods, platforms, tools, and resources
- Design lesson plan for distance learning
- Track the performance of the students using various online tools
- Database creation using Microsoft Excel

Activities & Project

- During the course of this programme, participants will be given group and individual projects to work on ranging from designing lesson plan, to working on Microsoft office.
- Evaluation based on MCQ and Assignments.

Who Can Attend?

- Faculty and PhD Research Scholar
